

Star Trek returns to theaters May 15 and so do the **barcode scanners** all over the Enterprise bridge.

Just like Kirk, Spock and Sulu, the same barcode scanners **Paramount Pictures** bought from **BarcodeInc** for **Star Trek in 2009**, return to their places on the USS Enterprise.

Symbol M2004 Cyclone

By the time the movie is set in (2259), this barcode scanner had been discontinued and replaced by the **Symbol DS9808** for over 250 years!
